

HEALTH LIFE PROGRAMMES

WHAT YOU WILL LEARN:

- Patient Assessment
- Cardiopulmonary Resuscitation (CPR)
- Use of Automated External Defibrillator (AED)
- Ventilation Techniques
- Opioid-Associated Life-Threatening Emergencies
- Choking Relief for Adult, Children, and Infants

WHAT YOU WILL RECEIVE:

- AHA Manuals
- Certificate & Card from AHA

The half-day AHA certified course is designed to introduce a systematic way of providing first aid and managing emergency patients. This course will be delivered with combination of theory with practical exercises. Some of the health life programme contents are related to guidelines on American Heart Association (AHA). The programme trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of an automated external defibrillator (AED).

The courses are led by a team of experienced and AHA certified instructors based on guidelines set by the AHA. Participants will experience simulation scenarios and work with an AHA instructor to complete BLS and HeartSaver skills practice and skills testing. Participants that achieved 80% on the written test and pass the practical test will be awarded with certificate and card of completion from AHA.

BASIC LIFE SUPPORT

Who Should Attend

- Basic Life Support (Healthcare Provider)
- Medical Doctor
- Nurses
- Paramedic
- Those who involved with patient care
- Medical & Healthcare Student

Duration

Half (0.5) Day

Fee

RM450.00

Dates
