## About The Programme

Domestic and workplace injuries are common ailments faced by everybody. The chances of injuries increase when an activity involves young children and this warrants the presence of a trained personal to provide proper response. This course is tailored for parents with young children and those who work closely with children such as baby-sitters, teachers and other childcare givers by emphasising on common issues faced by children in any emergency situations.

This 2-day comprehensive programme includes elements of the Basic Life Support Course (BLS) and Cardiopulmonary Resuscitation (CPR) course which are important skills to acquire. Recent studies in US and Japan have shown that accident victims and emergency patients have a 20% higher chances of survival when provided with first aid care or CPR by a by-stander as compared to those who only received such care upon arrival at the hospital. This further highlights the need for this training course to prepare adults to respond and manage common domestic and outdoor injuries faced by children including ensuring child safety at home.

## TRAINER

### **Asst. Prof. Dr. Basmullah Yusof**

Deputy Director, Centre for Disaster and Relief Medicine (DRM)

Dr. Basmullah successfully completed his M.D. from Universiti Sains Malaysia. He also earned an MSc (Emergency Response and Planning) from Universiti Putra Malaysia. Dr. Basmullah holds a Certificate in Scuba Medicine from Angkatan Tentera Malaysia. He is currently the Deputy Director of Centre for Disaster & Relief Medicine (DRMC) at Cyberjaya University College of Medical Sciences and the Coordinating Officer of CUCMS Malaysia Territorial Army (TA).

He has been active in humanitarian and Emergency Medical missions having participated in Aircraft Crash Recovery at Marudi District of Sarawak, Malaysia - 1992, Fire Crisis at LTAB Subang - 1993, Hajj Mission to Saudi Arabia (Doctor on Duty for Malaysian Pilgrims) - 1992 & 1993 (Arab Saudi), Malaysian Medical Relief Society (MERCY) Mission to Aceh Tsunami - April, 2005 (Aceh, Indonesia), Land Slide at Bukit Antarabangsa 2008, Flash Flood Relief in Johore, Kedah and Kuala Lumpur in 2010 and 2011, Land Slide Recovery at Hulu Langat 2012, Water Crisis in Selangor 2014, Medical Response Team for Flood in Kelantan/Pahang - 2014 - 2017.

Since 2009, Dr. Basmullah has been invited to share his knowledge and experience as a guest speaker regarding Disaster Management & Response, BLS/CPR, including recently in Dec. 2016, Cairo, Egypt class in Disaster First Aid. He has also authored the Nota Ringkas Panduan Kecemasan, Amalan Hidup Dan Pengurusan Bencana, 3rd edition, Community Disaster Preparedness And Resilience, DRM Teaching Manual for Lecturers/Facilitators, (2011), DRM Lectures Series - Manual for Lecturers (2012), Handbook For Humanitarian Workers (2014), DRM Train The Trainer Module for DRM Facilitators, (2015), Nota Kuliah Latihan Perajurit Muda Wataniah CUCMS (2016).

### **Assoc. Prof. Dr Mohamed Ikram Bin Mohamed Salleh** **Director, Centre for Disaster and Relief Medicine (DRM)**

Assoc. Prof. Dr Mohamed Ikram successfully earned his M.D. from Universiti Sains Malaysia. He also obtained his M.MED (Anaes) from Universiti Kebangsaan Malaysia. He has completed his certificate in Basic Life Support Course (BLS), Advanced Cardiac Life Support Course (ACLS), Paediatric Life Support Course (PALS), and Aquatic Life Support. Dr Mohamed Ikram is an Executive council member and life member of MERCY Malaysia. He has served in humanitarian work all around the world and is an expert in

Disaster and Relief Medicine.

Currently Dr Mohamed Ikram is the Head of Anaesthesiology and Critical Care Medicine Department. He is also the Director of the Centre for Disaster and Relief Medicine at Cyberjaya University College of Medical Sciences (CUCMS). He has conducted several training programmes on Disaster and Relief Medicine for CUCMS, Mercy Malaysia, Humanitarian Care Malaysia, IMARET and several hospitals. Dr Mohamed Ikram is a highly interactive trainer with a focus on making learning interesting and enjoyable. He is extraordinarily versatile, effortlessly adapting to all levels of participants. His training approach is fully learner-centric and engagement focused.
